*You will find the interpretation of your chart is written in simple language, uncluttered by astro-jargon.*

*If a statement appears to contradict another, then you exhibit these opposite qualities at different times in your life.*

*For example, a statement that you are highly sociable and gregarious and a statement that you prefer solitude seemingly contradict each other; this means that you vacillate, and need both sociability and solitude at different times.*

*For the benefit of astrologers and astrology students, the astrological factor that the interpretation is based on is also given - and below are the planetary positions at the time of your birth. If you are not a student of astrology, then you can ignore this. ☺*

## Chapter 1: General Characteristics

Your fundamental needs, values, and orientation towards life are symbolized by the four astrological elements. Each person has their own unique balance of these four basic energies: fire (warmth, inspiration, enthusiasm), earth (practicality, realism, material interests), air (social and intellectual qualities), and water (emotional needs and feelings).

Your "elemental make-up" is described below. Remember that most people are "unbalanced" or lopsided, and if you are lacking or deficient in a certain element (or elements), it simply means that you need to consciously develop that aspect of yourself to learn to appreciate and/or to work harder in that dimension of life.

Sometimes we overvalue the element that we are least endowed with, sensing it as a lack within ourselves, but more often we neglect or ignore it. The qualities described below will be reiterated and explained in more detail in the following chapters.

You possess a measure of all the elements and are thus less likely than others to overemphasize or completely neglect one dimension of experience for another. You are capable of both thinking and feeling, envisioning possibilities and dealing effectively with the here-and-now and so on. This does not mean that you do not have definite preferences and attitudes (these will be covered in the following chapters), nor even that you do not overdo or go overboard in your own particular way. But you are a more varied and complex person, less one-sided than many other people are, and you are able to draw on all of the elemental qualities when appropriate. In addition, you are able to relate to most people, recognizing a bit of yourself in their ways and values.

## Chapter 2: How You Approach Life and How You Appear To Others

The following is a description of your basic stance towards life, the way others see you, the way you come across, the face you show to the world. In Chapter 3 you will read about the "The Inner You: Your Real Motivation", which describes the kind of person you are at heart and where your true priorities lie.

Read this chapter and the next one and compare them - there may be significant differences between them, in which case "the inner you" may not shine through and others are in for some surprises when they get to know you at a more than superficial level. This chapter describes the costume you wear, your role in life, while Chapter 3 talks about the real person inside the costume.

Empowering you with **simple cosmic guidance**.

High-spirited, enthusiastic, and exuberant, you love adventure, change, exploring new territory, and are not happy confined to the same safe, familiar, secure little world all the time. You have a strong restlessness and yearning for something greater than anything you've yet experienced, and you often live in your dreams and visions for the future. You tend to believe that the grass is greener somewhere else and you like to keep moving, either literally or figuratively.

Idealistic and optimistic, you always expect something better ahead. You love to have a goal, something to aim for, but once you achieve it you are on to something else. You are ever on the lookout for new opportunities and you are a gambler, willing to take risks and to break new ground. The possibility of discovering something new is what makes life interesting for you. You have great faith in life and bounce back quickly from disappointment and failure.

Freedom-loving and independent, you cannot tolerate being caged for very long, and friends and loved ones must respect your need for freedom of movement. Binding commitments and responsibilities often weigh heavily upon you and you may resist "growing up" and taking on the limitations of adult life.

You are friendly and outgoing and have a great sense of fun and playfulness. You are also philosophically minded and often quite outspoken about your convictions and beliefs. Sometimes you get carried away with your enthusiasm of the moment and you tend to exaggerate. You are often a big talker, a big maker of promises, and you are usually pretty convincing.

You do everything in a big way, a generous way. You like to have the best, and you heartily dislike stinginess, littleness, or pettiness. Your vision is always large. You are able to perceive the big picture, general patterns and principles, and are well suited to politics, business, higher education or religion.

Other people see you as a good sport and a good friend, but one who is not always consistent and dependable. You may also be seen as a wise person since you do not get bogged down in pettiness and trivialities, and are able to communicate a larger way of looking at situations, one that opens up new potentials. You are a person who believes in miracles, grace, or just plain good luck, someone who never gives up on life, and you inspire and encourage others to keep looking forward.

You can get by in life almost by personality alone. There is a radiant, warm, attractive quality about you that others can't help responding to favorably. Usually you appear confident and clear about who you are, and it's very difficult not to notice you or feel your influence when you are around.

### ***Chapter 3: The Inner You: Your Real Motivation***

Not only are you restless and adventurous (as mentioned in the previous chapter), you have a rebellious, unconventional streak also, and you really want to have a significant impact on the world. You are a very active person and likely to be involved in community affairs as well as successful in your business or career.

You are a freedom-loving, strong-willed, and independent-minded individual, and you insist upon living your own life as you see fit, even if that means ignoring convention and tradition. In personal relationships you cannot be owned or possessed, and while you are willing to share yourself with another, you do not always adjust easily to the emotional give and take of a close relationship.

Though intellectually open, you can be enormously stubborn, opinionated, and inflexible on a one-to-one level. You have strong convictions and feelings about fairness and equality, and you try to live by your ideals, but your ideals about how people SHOULD treat one another don't always take into account human weaknesses, differences, and needs. You probably dislike sentimentality and traditional gender roles and "games".

You are fair, intelligent, objective, rational and often let your head rule rather than your heart. You seem rather self-sufficient and detached emotionally because you are capable of putting aside your personal feelings and viewing things dispassionately. But once you make up your mind on an issue, you are difficult to sway and can be rather dogmatic.

You think in broad terms and are concerned with the world beyond your own personal sphere - your town, nation, or even planet. You are likely to become involved in community affairs, social organizations, and groups of all kinds, or to have a keen interest in such. You enjoy being part of a group endeavor and often find yourself organizing, managing, or supervising group activities.

Forward-looking and progressive, you harbor great hopes for the future. You stay current and up to date, and respond to contemporary cultural trends, both in terms of personal style and in terms of ideas. When young you were very influenced by your peers and by group pressures and by all the "latest crazes". You have an experimental mind and are attracted by the novel.

Your strong points include your concern for human welfare and social betterment, your sense of fairness and democratic spirit, and your vision. Your faults are your stubbornness and inflexibility, and a tendency to be very obtuse and insensitive when it comes to personal feelings and human needs.

Empowering you with **simple cosmic guidance**.

The urge to learn and to communicate is essential to you, and you express yourself very well through writing, teaching or sharing ideas and information. You are persuasive and fluent with language.

Restless and inquisitive, you enjoy being mobile and taking short trips and excursions in order to see for yourself what is going on in the world around you.

## **Chapter 4: Mental Interests and Abilities**

You are a progressive thinker, open and receptive to new technologies and breakthroughs in science, and the latest discoveries in any field. You have high expectations and a deep belief that mankind's problems can be solved through the use of our creative intelligence and inventive mind. You have no patience for those whose conservative, unimaginative outlook limits their capacity to find solutions and envision a better future.

You also like to keep abreast of current developments in world affairs, for you instinctively know that what happens in one part of the world affects everyone. You have a strong humanitarian impulse. Practically speaking, you have an aptitude for organization and enjoy being involved in cooperative endeavors or businesses that are contemporary and innovative.

Your mental skills and intelligence are directed toward practical matters, and you are interested in the tangible effects of any abstract idea or concept. You are very interested in finance, economics, and moneymaking strategies.

You appreciate aesthetics and have a fine sense of form, design, and beauty. You could develop great technical skill as an artist, designer, craftsman, or creative writer. You could also sell objects of beauty - artistic products, cosmetics, jewelry, etc.

You have the ability to please and harmonize well with others and a talent for assuaging strain in the relationship of two other people. Your sense of humor, tact, and personal charm are a great benefit to you in any work with people on a one-to-one level.

You have an ongoing interest in learning and expanding your mental horizons. You enjoy traveling, philosophical discussions, and exchanging ideas with those of different experiences and viewpoints. Broad-minded and fair, you are well-suited to law, consulting, diplomatic relations, and also business. You learn quickly, and can

Empowering you with **simple cosmic guidance**.

pick up on a new idea or concept with relative ease.

You are open and receptive to subjects which defy rational explanation, such as psychic phenomena, mental telepathy, metaphysics, etc., and you could teach these subjects to others. Your mind is imaginative and inspired and you have an aptitude for art and creative writing.

You have strong feelings of love and an emotional need to talk about love problems. Beauty also is important for your emotional contentment and you dress very tastefully. You are kind and popular and give complements from the bottom of your heart.

You have an abundance of thoughts and many ideas to expand your horizon. Always receptive to new ideas, you tend to acquire considerable knowledge. New vistas of understanding may appeal to you, and you may get involved in groups that teach these ideas.

## **Chapter 5: Emotions: Moods, Feelings, Romance**

Secretive and inclined to brooding silences, it is difficult for others to really know your inner core, for you trust and open yourself to very few. Allowing yourself to be vulnerable and to relinquish control in relationships is not easy for you.

You have intense, passionate loves and hates and are a jealously loyal and protective friend - or a fearsome foe. You have a nasty habit of holding on to past hurts, resentments, and guilt - and to keep such feelings to yourself. It is important for you to learn to forgive and let go, as well as to express your feelings openly and directly, rather than hiding or repressing them.

You are not content with superficial appearances and are always probing beneath the surface of things for hidden motives. You have a great deal of emotional depth. Your own feelings and emotions are something of an enigma to you, and it is often difficult for you to share with others what you are feeling.

You frequently withdraw from contact with the world, and need a healing, peaceful environment in order to blossom and come out of yourself.

You identify with the oppressed, disenfranchised or underdog in any situation and want to help them or care for them in some way.

## Empowering you with **simple cosmic guidance**.

You are rambunctious and a little rowdy at times, and you enjoy sharing this kind of energy with your friends. Making noise, cheering at a football game, or even getting into a friendly fight all seem like a good time to you. You need to do these things, in fact. Otherwise you get crabby.

Although you are impetuous and easily provoked (as mentioned above), you also have a good-natured, live-and-let-live attitude and a sense of humor, which balances that. While hotheaded at times, you are usually a good sport.

Generally sunny and optimistic yourself, you have a cheering effect on those around you. You like and need people, and others genuinely like you too. You enjoy a wide circle of friends who are like family to you. Entertaining, partying, social activities, and fellowship are essential ingredients for your emotional well-being.

Your thinking is dictated by your feelings and you may rely on your intuitions and impressions rather than practical means. Your advice may often be sought and heeded, because you seem to know and understand what motivates others.

You have a strong desire for genuine understanding with others and find it easy to share your feelings with them. Your feelings toward others are very loving and you are likely to have a lot in common with many of your friends.

Your love feelings and desires are easily aroused but it may be difficult to sustain your romantic interest in a relationship after the initial, exciting "chase and conquest". You enjoy a partner who is dynamic and alive, someone with a strong independent streak, and you do not like things to become too peaceful or predictable in the love arena.

You want to see sparks fly once in a while, even if that means instigating a fight.

A warm, loving, and comfortable home is very important to you and you invest a lot of your energy into beautifying, decorating, and creating a lovely home. Also, you share your affection with the people in your family very generously and having close family ties is a major priority for you. Being at home makes you happy.

You are serious and find it difficult to enjoy yourself in a lighthearted, open and playful way with others. You rarely do something purely for pleasure, and can be very close-fisted and parsimonious. Perhaps due to painful separations in your early life, you are very cautious about becoming close to people and sharing your feelings.

Though you crave love and affection, intimacy is difficult for you. You may become romantically involved with people who do not value you or treat you well. You need to learn to love and value yourself before you will find happiness in love.

You tend to be attracted to people who are not quite what they seem to be. Gullible, romantic, and rather easily seduced, you frequently fall in love with an image in your own mind which you then project onto the person, only to discover later that this person never really possessed the lovely qualities you endowed her or them with. You also confuse love with pity, sacrifice, or misplaced notions of "selfishness", and thus set yourself up to be taken advantage of. You are capable of much devotion to a

Empowering you with **simple cosmic guidance.**

spiritual path, for you are actually seeking some sort of transcendent or mystical experience through love.

You love deeply, passionately, and wholeheartedly, and others may find your intensity either extremely attractive or threatening. You are charismatic and can have a powerful emotional influence on others, especially those of the opposite sex. You may use your attractiveness to manipulate others, sometimes without even realizing it.

Your feelings are very powerful and you express them vividly. Your romantic relationships are likely to be very passionate and deep. You have a tendency to go to extremes in love and may be driven by inner compulsion rather than rational thinking.

Your artistic feeling or perception gives you a strong creative potential. You have the ability to think in forms or shapes and also to tune into rhythms such as dancing, gymnastics and song. Your physical coordination could be excellent as well.

## **Chapter 6: Drive and Ambition: How You Achieve Your Goals**

You are serious about your ambitions, and disciplined, dedicated, and tenacious in pursuing your objectives. Your drive and energy are directed toward practical material accomplishment and achieving concrete results. You also strive to be in a position of authority and social influence; you enjoy being the person who is in command.

You are hard-working and capable of foregoing immediate comfort in order to achieve your long-range goals. You can easily become a workaholic and are very responsible and conscientious about doing a thorough job.

Realistic and pragmatic, you are an excellent strategist. You attain success by formulating a conservative and workable plan and following through with it. You are not a gambler when it comes to attaining your goals; you depend on your own efforts and perseverance rather than good fortune. You have a natural shrewdness and

Empowering you with **simple cosmic guidance**.

instinct for business or organizational management.

You often buy things on impulse and you can be reckless with your material resources and money. You have certain possessions that you are extremely attached to and possessive of.

Your self-confidence and vitality are strong and you believe you can do just about anything you want to. You have an enterprising spirit, a good sense of timing, and the ability to sense what will succeed and what won't. You usually make fortunate decisions in work or business activities. You enjoy healthy competition and you have a rather playful, good-humored attitude toward it. You mostly compete with yourself to see how far you can go or how much you can accomplish. You like to keep stretching your limits.

You have noble aspirations and grand plans for yourself. Combining personal goals with humanitarian concerns, philanthropy, and an interest in social betterment, you are apt to be quite successful and influential in your community. You are suited to large, expansive enterprises and dealing with wealth.

You have an abundance of energy, drive, and spirit to accomplish just about anything you desire. Your single-mindedness and zeal to get things done enable you to accomplish much. Sometimes you push yourself too hard without even realizing it, but sometimes even you need to relax and stop doing. You have the reputation for being a go-getter and a good worker.

## **Chapter 7: Growth and Expansion: Areas That You Enjoy**

Your ability to think things through clearly, and to analyze and understand the smallest details of any plan, is highly developed. You have a modest nature and are more concerned with the success of your project or work than with personal aggrandizement. You enjoy working and are happiest when you are being productive and using your time efficiently.

Your career or contribution to the world at large is likely to touch many people's lives in a very positive, helpful way. You aim high and have an innate confidence and trust both in your own abilities and in life in general, which enables you to go far.

You want to do something BIG with your life, and you attract the support you need to do so, for your aims are not solely for your own personal benefit. You want to give something back to the world, or to improve others' lives as well as your own.

## **Chapter 8: Areas That Challenge You Or Are Difficult For You**

You fear becoming emotionally dependent upon others, and may distance yourself or deny your needs for closeness and intimacy so that you won't be vulnerable to rejection or abandonment. On the other hand, you may cling excessively or need constant reassurance from loved ones and family. Developing a deep, inner sense of security, as well as the ability to give and receive nurturing are important tasks for you.

You take your commitments to others very seriously, especially in close one-to-one relationships. Your strong sense of responsibility to the other person makes you a trustworthy and dedicated partner, but you often feel that marriage or any binding commitment between yourself and another person is too restrictive and burdensome, and thus seek to avoid it.

Close relationships may be more work than pleasure for you and it may seem that you are always "working on" your marriage rather than enjoying it. You will persevere and ultimately grow through the process, however.

You strive and struggle a great deal with your ideals or spiritual aspirations. You may go through periods of self-denial, asceticism, and serious study of religious philosophy and spiritual practices, or you may lose heart and become cynical about religious ideals, but never quite divorce yourself completely from your idealistic concerns.

Basically shy, you tend to be somewhat inhibited in love and may feel uncomfortable or awkward expressing your love for someone. You long for love and dream about love, but also are inclined to torment yourself because of a seeming lack of affection.

Very cautious and reserved, you could find it difficult to express yourself. You are a bit inhibited around others and don't seem to get much cooperation from them, causing you to be disappointed.

Now we will discuss patterns of behavior which you instinctively and habitually revert to when under stress - a mostly unconscious process and one which you are apt to overdo because it is so familiar and thus easy for you. The direction you need to follow in order to develop balance, greater awareness, and wholeness is also described.

When under stress you are apt to close down the flow of your emotions, ignoring your needs and feelings in order to do what you perceive as your duty or simply what the practical realities of the situation require. This can lead to a certain rigidity and hardness. If overdone, self-control, self-discipline, or an exaggerated concern over what society, family or others expect of you makes life more a burden than an adventure.

Empowering you with **simple cosmic guidance**.

Developing tenderness, caring, feeling, and the feminine, nurturing aspects of yourself is an important step in your unfolding. You need to learn how to nourish and lovingly attend to both yourself and others. Letting yourself be taken care of sometimes is okay!

The arena you are most likely to wrestle with these issues is in relationships that are more than superficial or casual - in particular where you and another have merged emotionally, legally, or financially. You will see these issues arise in close partnerships of any kind, especially when there is a mutual dependency on one another. Dealing with in-laws, inheritances, and legal matters involving joint custody, shared assets, and resources is also a part of this.

## ***Chapter 9: Originality and Imagination*** ***Areas Where You Are Creative, Unique, Unstable, or Compulsive***

Your work habits may be unstructured and you may find it difficult to settle down to a routine task or work situation.

You are interested in new technologies or unusual, even revolutionary methods of solving problems in your work. Nontraditional methods of healing and medicine also fascinate you. You may work in an alternative health field or work for change and reform in whatever field you choose.

You are a very idealistic person, and you want to see your ideals, hopes, and dreams made concrete and real in the everyday world. You are driven to put your ideals into action.

When young you may be rather aimless or confused about your place in the world. In early adult life it is likely that you struggle to find ways to express your imagination, fantasies, and ideals in your career. Work that involves compassionate service (such as medicine or the ministry) may be your calling. If you lack personal integrity and honesty, you quickly go to the opposite extreme and you can con others through dishonesty and trickery. Music, art, film-making or entertainment are also areas in which you are well-suited.

You are a person of great depth and have a deep interest in the hidden or darker side

Empowering you with **simple cosmic guidance.**

of life. Issues and experiences others shun, you are drawn to and compelled to examine. The use and misuse of personal, social, and political power intrigues you. Death is also an area you are fascinated with and may explore in depth. You may have many experiences in which you are forced to burn your bridges and start over again.

You have a highly stimulated imagination, great inspiration and an immediate grasp of ideas that are usually too subtle for the intellect. You are likely to have sudden spiritual or psychic experiences and may take an interest in metaphysical subjects.

You seem to have nerves of steel and you are ambitious and courageous with a strong desire for power. You impress others as someone not to be trifled with. You have far-reaching plans and are likely to reach success early in life.

You seem to have a powerful influence on everyone and others are strongly attracted to you. You have a great need for attention or flattery and may be a bit fanatic in love. Your love experiences are likely to be very deep and intense.

You are likely to have great inner tension and may be easily influenced by other people. Because of lack of resistance, you tend to remain at the mercy of external conditions without even trying to make a firm stand.

## **Chapter 10: Generational Influences: Your Age Group**

In this chapter we will discuss characteristics and traits of your generation. Of course, you may not share all of the characteristics of your generation, but you are greatly affected by the tone that is set by your generation.

The first topic is "The Subconscious and Emotional Drive of Your Age Group". In this section we will describe a deeply felt urge, even compulsion, of your age group. This deeply felt drive comes to the surface with great force and power, and consequently leaves in its wake considerable upheaval and change.

The second topic is "The Ideals and Illusions of Your Age Group", that describes the dreams, fantasies, and spiritual aspirations of your age group. The third and last topic is "What is New and Different in Your Age Group", which describes areas in which your age group tends to be innovative, inventive, unusual, and also where it may be unstable and unreliable.

The characteristics described below may affect a group of people for anywhere from

Empowering you with **simple cosmic guidance**.

a few years to about 30 years. There are one or more different astrological factors described in each of the three sections below.

### *The Subconscious and Emotional Drive of Your Age Group*

You are part of a 20 year period that is often referred to as the "ME" generation, a generation that has a very proud and self-reliant attitude. You are a generation that is very concerned with self-development and personal integrity. Women's rights and minority rights are issues that your generation has fostered and they reflect your concern with individual respect, integrity, and honor. Your age group has a deeply felt sense that each person has an equal right and opportunity to fully develop his or her inner potential.

However, your group also finds it difficult to be part of a team and a strong egotism makes group efforts difficult; you tend to see the individual as more important than the group. You also defy authority and often feel that no one has the right to tell you what to do. The strong movement to refuse drafting into the military is one example of your age group's strong sense of individual rights and freedom.

Your age group has popularized the idea of self-development, and has contributed a great deal to the development of individual potential as well as human rights. However, there is also a tendency to be rather self-centered; others may wonder how you can spend so much time developing yourselves and have so little time to contribute to your families!

The interest in personal development also sometimes manifests as a fascination with particular individuals and a great deal of hero worship. Every generation, of course, has lots of idols, but your generation is particularly prone to needing a specific individual to represent and embody an idea or feeling, and to serve as a focal point of interest. Perhaps the most extreme example of this is the concept of the guru that was popularized by your age group.

You belong to a group of people who will be the positive reformers and innovators in society. Peaceful methods and new techniques which do not create too much disruption, but which bring about fundamental and profound changes in society, will be your contribution.

### *The Ideals and Illusions of Your Age Group*

You are part of a 14 year group of people who have a very idealistic sense of brotherhood and universal cooperation, which, among other things, fostered the peace and freedom movement.

Empowering you with **simple cosmic guidance**.

Your age group is also interested in the spiritual philosophy and ideals of other cultures, and is not at all dogmatic in its approach to religion. You incorporate the approaches of other religions. Your age group tends to have an eclectic approach to religion, utilizing elements from many religious perspectives (e.g. Eastern and Western), and finds it difficult to follow traditionally defined religious practices.

A gullibility and an unwillingness to be decisive and judgmental inclines your age group to be easily deceived, and consequently many of the well-intended ideals and goals are frustrated by a lack of clear purpose and direction.

You were also born during a period that lasted approximately 5 years and is characterized by an unusually high degree of imagination, intuition, and sensitivity.

You are part of a group of people who are very inspired. Your age group is rather zealous and enthusiastically rallies behind new visions and ideals for society. You succeed in bringing a breath of fresh air into the arts and religions, and you inspire new ideals and goals for nations as well. You are part of a creative group that can do much to inspire a fresh vision and renewed hope for others.

The entire generation to which you belong has tremendous opportunities for spiritual rebirth and awakening. This will not be forced upon you or precipitated by unavoidable events, rather it comes from an inner yearning and a natural propensity to seek the depths.

### ***What is New and Different in Your Age Group***

You are part of a 7 year group of people who are progressive and creative thinkers. Academic achievement is high and academic standards are higher with your age group than with others. You are a curious and inquisitive bunch, and many discoveries and clever insights are brought forth from your age group. The love of learning never dies with your age group, and your curiosity and inquisitiveness does not wane in later life, as is common with others.
