Personal Astrology Report for:

Keith Richards

18 December 1943 6:00 AM

Dartford, England

You will find the interpretation of your chart is written in simple language, uncluttered by astro-jargon.

If a statement appears to contradict another, then you exhibit these opposite qualities at different times in your life.

For example, a statement that you are highly sociable and gregarious and a statement that you prefer solitude seemingly contradict each other; this means that you vacillate, and need both sociability and solitude at different times.

For the benefit of astrologers and astrology students, the astrological factor that the interpretation is based on is also given - and below are the planetary positions at the time of your birth. If you are not a student of astrology, then you can ignore this. ☺

Chapter 1: General Characteristics

Your fundamental needs, values, and orientation towards life are symbolized by the four astrological elements. Each person has their own unique balance of these four basic energies: fire (warmth, inspiration, enthusiasm), earth (practicality, realism, material interests), air (social and intellectual qualities), and water (emotional needs and feelings).

Your "elemental make-up" is described below. Remember that most people are "unbalanced" or lopsided, and if you are lacking or deficient in a certain element (or elements), it simply means that you need to consciously develop that aspect of yourself to learn to appreciate and/or to work harder in that dimension of life.

Sometimes we overvalue the element that we are least endowed with, sensing it as a lack within ourselves, but more often we neglect or ignore it. The qualities described below will be reiterated and explained in more detail in the following chapters.

You possess a measure of all the elements and are thus less likely than others to overemphasize or completely neglect one dimension of experience for another. You are capable of both thinking and feeling, envisioning possibilities and dealing effectively with the here-and-now and so on. This does not mean that you do not have definite preferences and attitudes (these will be covered in the following chapters), nor even that you do not overdo or go overboard in your own particular way. But you are a more varied and complex person, less one-sided than many other people are, and you are able to draw on all of the elemental qualities when appropriate. In addition, you are able to relate to most people, recognizing a bit of yourself in their ways and values.

Chapter 2: How You Approach Life and How You Appear To Others

The following is a description of your basic stance towards life, the way others see you, the way you come across, the face you show to the world. In Chapter 3 you will read about the "The Inner You: Your Real Motivation", which describes the kind of person you are at heart and where your true priorities lie. Read this chapter and the next one and compare them - there may be significant differences between them, in which case "the inner you" may not shine through and others are in for some surprises when they get to know you at a more than superficial level. This chapter describes the costume you wear, your role in life, while Chapter 3 talks about the real person inside the costume.

Empowering you with **simple cosmic guidance**.

You are very strong-willed and proud, but intensely private and not easy to know well. Behind your quiet exterior lies a great deal of emotional depth, sensitivity, complexity, and also fierce determination. When you want something you go after it rather quietly but insistently and wholeheartedly - and you usually get it.

You are not a person who lives lightly or superficially. You want to live passionately and intensely and are not averse to challenge, danger, or to facing the darker side of life - human pain and struggle. You function well in crisis situations and often seek them out, for you enjoy the feeling of living at full capacity.

You are very intuitive about other people and especially about their unspoken feelings and hidden motives. You usually have strong, immediate gut reactions, either positive or negative, which prove to be correct. You approach life very instinctively and are not always fully conscious of why you feel or act as you do. You also have a very strong affinity with animals - an acute sensitivity and a nonverbal kind of rapport with them.

In relation to others, you are rather cautious, sometimes even suspicious, until you get to know and trust them - and trust doesn't come easily to you. When you commit yourself emotionally to someone, be it friend or lover, you are intensely loyal and devoted to them and you also expect the same kind of unwavering, undying loyalty in return. If you are ever betrayed by someone you care deeply for, you are capable of hating and retaliating with as much fervor as you once loved. Nothing is done halfway. In fact, you are intensely involved and often jealously attached to whatever you care about, be it person, idea, or cause. There is definitely a streak of emotional fanaticism in you.

Because of your natural reserve, others may see you as something of an enigma. You are quite self-protective and often defensive. You are also very magnetic, especially to members of the opposite sex.

Chapter 3: The Inner You: Your Real Motivation

Your initial wariness and caution (as described in the previous chapter) is balanced by your innate enthusiasm and optimism. Even though you are fierce and emotionally intense, you can also see yourself and your predicaments from a larger perspective, and can laugh at yourself as well.

You are a gambler and an adventurer at heart, one who loves to take risks, to discover and explore new worlds, and to take the untried path rather than the safe, reliable one. You are an independent soul, freedom-loving, and often very restless. You need a lifestyle that provides opportunities for travel, movement, change, and

Empowering you with **simple cosmic guidance**.

meeting new people. A steady routine which offers much in the way of security but little in the way of space and freedom is odious to you.

To you, life is a journey, an adventure, endlessly interesting and rich with possibilities, and it may be difficult for you to decide where to focus your attention and efforts. You probably traveled around and experimented with many different paths before you settled on a particular career. Or you may go from one project to the next, for once the challenge and vital interest is gone, you are very quick to move on. Commitment, discipline, focus, and concentration are not your strong points. You can be irresponsible and disinclined to take on the burdens and limitations of adult life.

An incurable optimist, you have big dreams, aspirations, and hopes for the future and are usually pursuing some distant goal. You have a great deal of faith and trust in life and failures don't crush your spirit. You always bounce back from disappointments, often with another bright dream or scheme. You have a sporting, playful attitude toward life and are philosophical about your mistakes. You have the ability to sense future trends, to see the big picture, and you like to theorize and speculate. However, attending to all of the details and practical requirements of implementing your theories is bothersome to you.

You express yourself in a very open, direct, and straightforward manner and are often blunt and tactless as well. Because you do not take yourself too seriously, you may not realize how deeply your candid statements can wound more sensitive souls. In fact, though you may not realize it, your insensitivity and lack of understanding regarding others' feelings is probably one of your worst faults.

You do enjoy friendship and camaraderie, but you need freedom also and do not do well with a possessive, clinging, or emotionally demanding partner. You are quite generous yourself, and heartily dislike pettiness in others. Someone who shares your ideals, your sense of fun, and your zest for life would be the right companion for you.

Ownership gives you a sense of security, and you have a strong attachment to your possessions. You also have a natural instinct or understanding of economics, finance, trade, and appraising the value of merchandise.

You have big aspirations but do not struggle or labor to achieve them. Your self-confidence and inner harmony attract success and benefits to you in an almost magical way. Your optimism and cheerful generosity also win you many allies and successes in life.

However you also have a heavier side which keeps your optimism from becoming ungrounded or overblown. You tend to seesaw between your faith, vision and high aspirations, and your caution and realism (or fear!). You cannot and do not rely on good luck or grace alone, and you accept the need for hard work. Your doubting or "heavy" side is described below.

Empowering you with **simple cosmic guidance**.

You may have had a demanding and perfectionist or absent father. In any case, a lack of support and approval, a great deal of responsibility at an early age, and an underlying feeling that you can never quite measure up may hold you back. While you may meet much adversity and struggle alone through many of your trials in life, this makes you tough and determined. However, beware of becoming cynical, too hard on yourself, and too demanding and critical of others.

Chapter 4: Mental Interests and Abilities

Clear, objective, and realistic, you are unimpressed by exaggerated claims or promises. You insist upon being shown facts to back up any statement you hear, and your natural skepticism often borders on cynicism. You approach problems clearly and rationally and maintain your poise and objectivity even in the midst of critical situations. Anyone seeking your advice is certain to get an unemotional and unbiased assessment of their situation, and you therefore make a good arbitrator or judge. You are thorough, conscientious, and disciplined in your thinking, and have an aptitude for business, organization, and administration. You are also a good strategist, and will plan and patiently follow a realistic course which will lead to your eventual success. Serious-minded and studious, you enjoy quiet time alone for thinking or reading.

Your mental skills and intelligence are directed toward practical matters, and you are interested in the tangible effects of any abstract idea or concept. You are very interested in finance, economics, and moneymaking strategies.

You appreciate aesthetics and have a fine sense of form, design, and beauty. You could develop great technical skill as an artist, designer, craftsman, or creative writer. You could also sell objects of beauty - artistic products, cosmetics, jewelry, etc.

You have the ability to please and harmonize well with others and a talent for assuaging strain in the relationship of two other people. Your sense of humor, tact, and personal charm are a great benefit to you in any work with people on a one-to-one level.

You are very thorough and are likely to commit yourself to some type of study or research work. Not very talkative, you try to avoid contact with others as much as

Empowering you with **simple cosmic guidance.**

possible and prefer to do your work in seclusion or solitude.

You form your own conclusion about things and may have some difficulty in exchanging your thoughts and ideas with others, although they regard your ideas as having a good foundation. Most of your conversations tend to have a serious overtone.

Chapter 5: Emotions: Moods, Feelings and Romance

You are very sensitive, cautious, and shy about showing others your feelings. Though you may love and care for someone a great deal, you rarely express those feelings openly and freely. Very often your love for someone will be expressed by trying to help them, doing something tangible to benefit them, or serving them in some way.

It is also difficult for you to receive warmth, affection, or appreciation, for you often feel that you don't really deserve it or that "they don't really mean it". You can therefore seem rather cool and aloof, much more so than you feel.

A deeply ingrained critical attitude often makes you difficult to live with. You need to learn to be gentler and less of a perfectionist with others and with yourself.

You work well with the public and have an instinct for what the public wants and will respond to. Having a "nest" is not especially important to you, and you may invest more of your emotional energy into your career or public life than in your private life.

Providing for and caring for others in a professional capacity is very likely.

You are temperamental and impatient and can be very difficult to live with. You tend to respond with a temper tantrum (overt or subtle) if your desires are frustrated. You become very irritable and bad-tempered if you do not have enough vigorous physical activities or other outlets for your aggressive, feisty spirit.

You genuinely appreciate and understand women, and are likely to have many female friends, a network of women who love and support you. It is relatively easy for you to attract companionship and affection, and there will never be a lack of either in your life. Children are very important to you also.

You crave excitement, change, and discovery, and cannot tolerate a routine or

Empowering you with **simple cosmic guidance**.

lifestyle that offers little in the way of surprise or challenge. Excitable, spontaneous, and enthusiastic about anything new, you may be perceived by others as being too impulsive, especially in personal relationships. It is not easy for you to make or keep commitments, since you don't know how you will be feeling from one day to the next. Emotional freedom is very important to you. Your domestic life can be very unstable - but you like it that way.

You are easily influenced by your environment and tend to get depressed when things don't go the way you expected. Relationships are not easy for you; you could be a recluse, avoiding most contact with others.

You are subject to strange emotional experiences which could relate to the supernatural. Very sensitive, you immediately respond to every influence, resulting in frequent changes of mood. You may be interested in the occult, psychic studies and spiritualism.

In love, you desire a deep, intense, passionate union with your beloved and form very strong emotional bonds and attachments. You "marry" the person you love at a very deep emotional level, and are often extremely possessive and jealous of any threat to that union. You can be very demanding with your love partner. You tend to be somewhat suspicious of even platonic, friendly relationships your partner has. If you are ever betrayed, you are capable of hating with as much force and intensity as you once loved. You are attracted to people who have an aura of mystery about them.

You often hide your affection, or find your feelings difficult to express or get across to the person you love. Being openly affectionate and trusting often doesn't seem safe to you. You may feel your love won't be appreciated or reciprocated. You may get involved in secret love affairs or fall in love with a person who is quite unavailable to you. Love and sacrifice often seem to go hand in hand for you - having to give something up to be with the one you love, or having to relinquish some person or some aspect of an important love relationship.

There can be a lack of harmony or satisfaction in your romantic relationships - not necessarily a great deal of open conflict, but simply an underlying tension or discontent. This is because the people you find likeable, lovable, and agreeable to you may not be at all attuned to your sexual tastes and needs. Another, more direct way of saying this is, the people you love and the people you want to make love with are very different from one another. You may be confused about what you really need and want in personal relationships. You need to acknowledge that you have some conflicting desires (such as a partner who is very gentle and sensitive but also a powerful, dominant personality, or security and commitment in love but also a lot of freedom and excitement, etc.) Trying to satisfy both sides of the equation can be a tricky challenge.

You experience powerful, compelling emotional and sexual attractions, and you

Empowering you with **simple cosmic guidance.**

may feel that you have little choice or control over your desires. You have an intense need for love and may be emotionally greedy or insatiable. Your love life is passionate and often tumultuous and painful as well. Jealousy, power struggles, or possessiveness can become areas of conflict in your relationships. Positively, you can be unusually creative and bring about beneficial and healing changes in the lives of others, motivated by your deeply felt love.

You think with both your mind and your heart and have an unobtrusive, empathic intellect. You relate to others in an affable, considerate and thoughtful way and always seem to find the right words at the right time.

You tend to think a lot about art and beauty as well as matters of love and are content with the way things are in your life. You are comfortable in talking to someone about your feelings toward them. You also could find artistic endeavors very rewarding.

Chapter 6: Drive and Ambition: How You Achieve Your Goals

You are a "busy bee" - energetic, restless, and forever on the go. Your active mind is always buzzing with ideas and you find it difficult sometimes to relax, slow down, or take time to reflect and replenish yourself. You tend to live on nervous energy. You can accomplish much in short bursts but projects that require long-term commitment, stamina, and steady, persistent effort are not easy for you. You often scatter your energies into so many directions and activities at once that you cannot finish or follow through on some of them. You need variety, change, and mental challenges.

You have a sharp and eager mind, and you enjoy games and competitions that have a mental component. You like to match wits with someone else.

Empowering you with **simple cosmic guidance**.

You often achieve your desires by your verbal skill, your ability to speak clearly, vigorously, and convincingly for what you want. Your drive and energy is more mental than physical. You use your wit, intelligence, communication skills, social sophistication, and awareness to achieve your goals.

You are attracted to feisty, dynamic, strong-willed people, and you seem to need a lot of fireworks in your personal relationships. You can be very combative, or get involved with people who are. Ideally you will join with people who are energetic and ambitious, but not too domineering or aggressive.

Dynamic, self-willed, and fiercely independent, you have extraordinary drive and energy. When you want something, you want it NOW, and you act quickly, impulsively, and decisively. Your impatience inclines you to be abrupt with people and reckless. You need a great deal of personal freedom to do things in your own way and do not happily conform to schedules, rules, or regimes imposed by others. You are intolerant of authority and can be very rebellious. You are very frank with others, sometimes brutally so. You may have an explosive temper. High-strung and often nervous and tense, you find it difficult to slow down, pace yourself, or relax. You are always on the go. You are restless, daring, and experimental.

While you are often charged with energy and inspired about what you want to do (as mentioned earlier), there is a dreamy, visionary, or passive side to you as well. Your energy level may fluctuate from being superabundant to rather lax.

You dream up creative solutions to problems and take an imaginative, unusual approach to getting a job done. When difficulties arise you prefer to avoid conflict and confrontation in favour of more peaceful or subtle methods of resolving problems. Working to help others or for a cause that transcends your own narrow, personal interests is satisfying for you. You have an artistic flair and appreciate the colourful, unique, or strange.

When you want something, you can be amazingly persistent and unrelenting, even a bit obsessed, although quiet about it. In fact you may hide your deep purposes and intentions even from friends. Whenever you do a thing, it is done wholeheartedly and thoroughly -- and if you don't want to do something that others wish you to do, somehow you'll find a way out of it. You're strong, though subtle.

You are industrious and diligent and have the power to establish yourself in the world. You are very ambitious and tend to strive for public recognition. Although you may not be looking for trouble, you also could easily get into disputes or quarrels.

You are apt to receive much publicity and popularity through your professional pursuits, for you have a way of winning the hearts and trust of many people. You have an instinct for what the masses of people will respond to emotionally, and this feeling-sense of what other people want enables you to succeed in sales, promotion, and so on. Your career could also involve protecting and caring for people, nurturing, "mothering" others in some capacity.

Empowering you with **simple cosmic guidance.**

You are intensely competitive, and may engage in furious battles of will, numerous conflicts, and possible public controversy, on your way to gaining your objectives. You could be drawn to activities that are dangerous, in the line of fire, so to speak. You put yourself on the line. Anger or recklessness could be your downfall.

Your drives and ambitions in life may seem crazy or eccentric to the more conservative people you know. There may well be no security or safety net (no retirement pension, no insurance benefits) in the work you do. You are suited for freelancing, or professions that involve lots of change, innovation, variety, irregular schedules, and the like. Expect the unexpected and numerous ups and downs in the course of your life. You may change course often, and try many different things.

Fluidity of speech and thought, and using intellectual gifts or communicative skills to achieve your ambitions in life are featured. Convincing, selling, persuading, reasoning, bringing ideas into public awareness are also part of your professional life.

Your career is apt to involve beauty, adornment, the arts, or entertainment. Your personal charm and appeal are significant factors in your profession, as well. You are very good at selling and promoting -- whether it is yourself, or your product or company.

Chapter 7: Growth and Expansion: Areas That You Enjoy

You cannot tolerate smallness or pettiness in any form, and you have a tendency to exaggerate. Also, you have a wonderful sense of drama! You must live boldly and heroically. Otherwise you feel you are simply existing and wasting your talents.

The desire for personal recognition - or even Fame - and a need to do something you feel really proud of, motivate you strongly. You have an unusual capacity for fun and playfulness also.

Empowering you with **simple cosmic guidance.**

Your career or contribution to the world at large is likely to touch many people's lives in a very positive, helpful way. You aim high and have an innate confidence and trust both in your own abilities and in life in general, which enables you to go far. You want to do something BIG with your life, and you attract the support you need to do so, for your aims are not solely for your own personal benefit. You want to give something back to the world, or to improve others' lives as well as your own.

You have a very optimistic attitude and the ability to make contact with others quickly. Having the gift of showing joy when meeting people insures harmonious cooperation with them. You are likely to bring success and recognition to yourself.

Chapter 8: Areas That Challenge You or Are Difficult for You

You doubt your own intelligence and mental capacities, and you may work very hard at studies in order to compensate for this. You are often overly serious and disinterested in light or superficial conversation. Spontaneous communication, social give-and-take, and making small talk are likely to be difficult for you.

Fear of the unknown, of change, and/or of death may plague you. You strongly resist changes and transitions rather than greeting them with curiosity or a spirit of adventure, which makes them much harder for you.

On another level entirely, you are very careful about joining forces, and especially your material resources, with others. You want to keep your own and other people's property and assets very distinct.

Now we will discuss patterns of behaviour which you instinctively and habitually revert to when under stress - a mostly unconscious process and one which you are apt to overdo because it is so familiar and thus easy for you. The direction you need to follow in order to develop balance, greater awareness, and wholeness is also described.

Your path lies in developing yourself as an individual, discovering your own strengths and joys, giving expression to your uniqueness, and letting yourself shine and stand out from the crowd. This involves becoming a leader, even though your instinct is actually to be "one of the Indians" rather than the "chief". When under stress you are apt to seek safety in numbers, to go along with the group. Also, you

Empowering you with **simple cosmic guidance**.

may believe that striving to do your personal best and to excel is wrong or selfish, but you should let go of this notion. Finding your own center and doing what gives you delight and energy is the most worthwhile contribution you can offer the world at large.

The arena you are most likely to wrestle with these issues is in developing a personal vision or philosophy of life, whether this be through religious or philosophical studies, a broadening education, or visiting and drawing upon the wisdom in distant lands or cultures. Cultivate the qualities described above in this endeavour. Long distance communication and involvement with foreigners is likely to be significant to you.

The following are specific activities that will support you in your growth. These may or may not feel natural to you, and often there is some feeling of resistance or initial awkwardness about doing these things, but they are important on your path to wholeness.

Your path to wholeness involves confronting the dark and hidden aspects of yourself - bringing them to light and transforming yourself in the process. Healing abilities develop as a result of your willingness to experience and transform deep emotions such as grief, anger, and pain. Also, seeing the darkness and pain in the world and helping to bring light to it without becoming overwhelmed is a significant issue for you.

Your relations with others could be rather unstable and unreliable. With a somewhat negative attitude and weak will, you avoid opposition and escape your responsibilities. In association with others, you are likely to choose people who are asocial.

Chapter 9: Originality and Imagination Areas Where You Are Creative, Unique, Unstable, or Compulsive

You need a lot of freedom in your close one-to-one relationships and you may experiment with nontraditional forms of relationships. You rebel against conventions and restrictions when it comes to marriage or personal relationships, and you're likely to choose a highly unusual, eccentric, or unconventional partner.

Empowering you with **simple cosmic guidance**.

You are idealistic in your social and political outlook, and your ideals may impel you to join clubs, organizations, communities of like-minded people, or groups that share your vision and your concerns.

You have strong philosophical views and there are times in your life when you passionately crusade for a cause that you deem noble and of utmost importance. Although your intentions are good, you are not as objective as you think you are, and your views are more colored by personal experiences and concerns than you realize. Nevertheless, you can also be instrumental in bringing about positive change if you can avoid being dogmatic. Also, you may radically change or revise your own personal beliefs, even your most cherished convictions, many times during your life.

You seem to have doubts and fears, and a general distrust, inhibiting you emotionally. You have a longing for distant places and things that are beyond your reach. Insecurity and lack of belief in yourself is apt to bring frequent states of depression.

You tend to seek eternal happiness and have only beautiful images in your mind. You overlook the very real aspects of life and may fall in love with someone because he or she is so perfect. But afterwards, you may have difficulty accepting their faults and end up being disappointed.

Chapter 10: Generational Influences: Your Age Group

In this chapter we will discuss characteristics and traits of your generation. Of course, you may not share all of the characteristics of your generation, but you are greatly affected by the tone that is set by your generation.

The first topic is "The Subconscious and Emotional Drive of Your Age Group". In this section we will describe a deeply felt urge, even compulsion, of your age group. This deeply felt drive comes to the surface with great force and power, and consequently leaves in its wake considerable upheaval and change. The second topic is "The Ideals and Illusions of Your Age Group", that describes the dreams, fantasies, and spiritual aspirations of your age group. The third and last topic is "What is New and Different in Your Age Group", which describes areas in which your age group tends to be innovative, inventive, unusual, and also where it may be unstable and unreliable.

Empowering you with **simple cosmic guidance**.

The characteristics described below may affect a group of people for anywhere from a few years to about 30 years. There are one or more different astrological factors described in each of the three sections below.

The Subconscious and Emotional Drive of Your Age Group

You are part of a 20 year period that is often referred to as the "ME" generation, a generation that has a very proud and self-reliant attitude. You are a generation that is very concerned with self-development and personal integrity. Women's rights and minority rights are issues that your generation has fostered and they reflect your concern with individual respect, integrity, and honor. Your age group has a deeply felt sense that each person has an equal right and opportunity to fully develop his or her inner potential.

However, your group also finds it difficult to be part of a team and a strong egotism makes group efforts difficult; you tend to see the individual as more important than the group. You also defy authority and often feel that no one has the right to tell you what to do. The strong movement to refuse drafting into the military is one example of your age group's strong sense of individual rights and freedom.

Your age group has popularized the idea of self-development, and has contributed a great deal to the development of individual potential as well as human rights. However, there is also a tendency to be rather self-centered; others may wonder how you can spend so much time developing yourselves and have so little time to contribute to your families!

The interest in personal development also sometimes manifests as a fascination with particular individuals and a great deal of hero worship. Every generation, of course, has lots of idols, but your generation is particularly prone to needing a specific individual to represent and embody an idea or feeling, and to serve as a focal point of interest. Perhaps the most extreme example of this is the concept of the guru that was popularized by your age group.

You belong to a group of people who will be the positive reformers and innovators in society. Peaceful methods and new techniques which do not create too much disruption, but which bring about fundamental and profound changes in society, will be your contribution.

The Ideals and Illusions of Your Age Group

You are part of a 14 year group of people who have a very idealistic sense of brotherhood and universal cooperation, which, among other things, fostered the peace and freedom movement. Your age group is also interested in the spiritual philosophy and ideals of other cultures, and is not at all dogmatic in its approach to religion. You incorporate the approaches of other religions. Your age group tends to

Empowering you with **simple cosmic guidance**.

have an eclectic approach to religion, utilizing elements from many religious perspectives (e.g. Eastern and Western), and finds it difficult to follow traditionally defined religious practices.

A gullibility and an unwillingness to be decisive and judgmental inclines your age group to be easily deceived, and consequently many of the well-intended ideals and goals are frustrated by a lack of clear purpose and direction.

You were also born during a period that lasted approximately 5 years and is characterized by an unusually high degree of imagination, intuition, and sensitivity. You are part of a group of people who are very inspired. Your age group is rather zealous and enthusiastically rallies behind new visions and ideals for society. You succeed in bringing a breath of fresh air into the arts and religions, and you inspire new ideals and goals for nations as well. You are part of a creative group that can do much to inspire a fresh vision and renewed hope for others.

What is New and Different in Your Age Group

You are part of a 7 year group of people who are progressive and creative thinkers. Academic achievement is high and academic standards are higher with your age group than with others. You are a curious and inquisitive bunch, and many discoveries and clever insights are brought forth from your age group. The love of learning never dies with your age group, and your curiosity and inquisitiveness does not wane in later life, as is common with others.
