*You will find the interpretation of your chart is written in simple language,  
uncluttered by astro-jargon.*

*If a statement appears to contradict another, then you exhibit these opposite  
qualities at different times in your life.*

*For example, a statement that you are highly sociable and gregarious and a  
statement that you prefer solitude seemingly contradict each other; this means  
that you vacillate, and need both sociability and solitude at different times.*

*For the benefit of astrologers and astrology students, the astrological factor that the  
interpretation is based on is also given – and below are the planetary positions at the  
time of your birth. If you are not a student of astrology, then you can ignore this. ☺*

## Chapter 1: General Characteristics

Your fundamental needs, values, and orientation towards life are symbolized by the four astrological elements. Each person has their own unique balance of these four basic energies: fire (warmth, inspiration, enthusiasm), earth (practicality, realism, material interests), air (social and intellectual qualities), and water (emotional needs and feelings).

Your "elemental make-up" is described below. Remember that most people are "unbalanced" or lopsided, and if you are lacking or deficient in a certain element (or elements), it simply means that you need to consciously develop that aspect of yourself to learn to appreciate and/or to work harder in that dimension of life.

Sometimes we overvalue the element that we are least endowed with, sensing it as a lack within ourselves, but more often we neglect or ignore it. The qualities described below will be reiterated and explained in more detail in the following chapters.

Oftentimes you overlook, ignore, or seem oblivious to the emotional aspects of a situation, focusing instead on "what needs to be done" in a straightforward and somewhat impersonal way. You can seem unfeeling or even callous. Actually you are more likely to simply be uncomfortable and uncertain how to respond when confronted with a great outpouring of emotion or with needs that are emotional and subtle rather than physical and tangible.

You also tend to distrust feelings, intuitive perceptions, or anything outside the realm of the concrete and rational. In other words, if you can't see it or touch it, you are likely to discount it.

Unless you learn to appreciate and open up to your own and others' feelings and inner experience, you are likely to live a rather

Empowering you with **simple cosmic guidance**.

dry existence, missing out on much of the richness of deep personal relationships and emotional intimacy.

Beware of allowing your responsibilities or work to so dominate your life that you forget to emotionally nourish yourself and your loved ones.

Although fundamentally realistic, with a definite conservative bent, you come across as rather liberal and open-minded, as you will read in the next chapter. Your apparent tolerance for varying points of view is limited, however, to those which seem well-grounded and workable to you.

## *Chapter 2: How You Approach Life and How You Appear To Others*

The following is a description of your basic stance towards life, the way others see you, the way you come across, the face you show to the world. In Chapter 3 you will read about the "The Inner You: Your Real Motivation", which describes the kind of person you are at heart and where your true priorities lie. Read this chapter and the next one and compare them - there may be significant differences between them, in which case "the inner you" may not shine through and others are in for some surprises when they get to know you at a more than superficial level. This chapter describes the costume you wear, your role in life, while Chapter 3 talks about the real person inside the costume.

Empowering you with **simple cosmic guidance**.

You are always questioning and learning, and you seem young and alive no matter what your chronological age, for your mind is always alert, curious and flexible and open to new experiences. You have a childlike enthusiasm for anything new and you learn easily, but you also get bored rather quickly. You can be something of a scatterbrain, for you tend to have so many ideas and irons in the fire that it is hard to keep track of them all. You need and crave variety, change, mental stimulation, and an active social life.

Articulate, clever, often funny and witty, you are always a refreshing and interesting conversationalist. You enjoy meeting and interacting with a variety of different people. You are friendly, flirtatious, and charming in a light, playful way, and no matter how badly you may be feeling, you never appear heavy or somber. You may seem frivolous to other, more serious souls. You have a sense of humor and a sense of perspective that prevents you from taking yourself or life too seriously. In fact, you may seem flippant or unconcerned about matters that others consider very important.

In general, you respond to life mentally and objectively rather than emotionally, and you may not empathize with people very much. You do not like to be weighed down with too much responsibility or with others' emotional burdens. Furthermore, if you cannot UNDERSTAND something reasonably and logically, then very often you would prefer to ignore it, including your own and other people's irrational feelings, desires, and needs.

Consistency and reliability are not great virtues of yours and your life is apt to be full of changes and movement due to your restlessness. You become nervous and fidgety if things are not moving quickly enough. You are interested in what is current and up-to-date, the newest trends in thought or style.

Your gifts are a quick mind, verbal facility, a flair for language, social sophistication and polish, the ability to communicate, converse, and build bridges between people and between ideas.

Empowering you with **simple cosmic guidance**.

You tend to become an incessant chatterbox or gossip if you do not have work or other activities that utilize your mental, verbal, and social skills.

Despite the fact that your core self is quite a bit different from the face the world generally sees, you have a strong desire to be seen and recognized, to be acknowledged, and to have a significant influence on people in your environment. You may do remarkable things in order to be noticed. However, you often don't get the full recognition you wish for.

You are assertive and bold. You are willing to be the first person to speak up and make your position known, and to strike out on your own if necessary. You generally get along better with men than with women because your approach is quite direct and sometimes tactless and insensitive as well. You can be a bit too forceful. However, your boldness is your calling card, and most people feel that you can at least be trusted to be honest with them.

You have an open and cheerful manner and attract attention because of your good taste in clothing, hairdo and general well-kept appearance. You have the ability to create a harmonious environment and are happy and confident in the company of others.

You are somewhat erratic and constantly looking for something new. You change your opinions frequently and others never know what you will do. Because you are easily excitable and unpredictable, others may find it taxing to spend time with you.

## *Chapter 3: The Inner You: Your Real Motivation*

Although you often seem light, flippant, and careless or carefree (as mentioned in the previous chapter), you have a more conscientious, careful, and responsible side also, as described below. You are perceptive and clever and you need to guard against being sharp-tongued at times.

At heart you are modest and humble, and you rarely strive to be in the limelight or in a position of power. You have a sharp analytical mind, a keen eye for detail, and you prefer to observe, dissect, and study life from a distance. Conscientious and conservative, you can be relied upon to be careful, efficient, and thorough in your work and you take pride in doing a job well. What you may lack in self-confidence you often make up for in skill - developing expertise, technical knowledge, and competency in some specialized area.

You are adept at using your hands to create or fix things, and meticulous attention to detail and careful craftsmanship are your forte. Some would say you are a little TOO meticulous, for you can be extremely critical and petty if everything is not done exactly as you think it should be, and you worry about things that other people consider trivial and unimportant.

You like to organize, categorize, and arrange everything into a logical system, and you are often distinctly uncomfortable when something does not fit into a neat category. Disorganization vexes you. You probably wish that you were not such a perfectionist, for besides being a stickler for details, you can be mercilessly self-critical as well. Whether in your environment or in yourself, you tend to focus on the flaws, with a desire to improve, refine, and perfect. You are strictly factual, truthful, and scrupulously honest in your self-estimation, and you often do not give yourself enough praise or credit.

You are also highly discriminating and may be especially particular about your diet, hygiene, and health habits.

You have high aesthetic standards and refined sensitivities, and will be bothered by elements in your surroundings (such as disorder, cigarette smoke, etc.) that others overlook. Your tastes are simple, understated, but refined. Coarseness, bluntness, and vulgarity really offend you. You can be difficult to live with sometimes because of your fastidiousness, your sensitivity, and your idiosyncrasies about food and cleanliness.

Though you seem rather cool and self-contained, you have a very helpful nature and you enjoy serving others. You are content to be in a supportive, assisting role rather than in the lead. You are quietly devoted to the ones you care for.

You are careful and cautious in your approach to life, realistic, practical, and disinclined to gamble. You analyse before you act. You are too serious sometimes. Allowing yourself to play and to make mistakes would be healthy for you!

You are a private person and inclined to withdraw in very public and impersonal social settings. You prefer to work at home or in a very personal small business.

You invest a lot of your creative energy into your home, your family, and your inner life.

You tend to see things from your perspective only and to be rather subjective. You also enjoy talking and expressing your views but you don't always listen as well. You have a clear mind, a love of learning and new experiences, and need constant mental stimulation and activity.

You are extremely sensitive and imaginative, and you can get lost in your dreams, fantasies, and visions. You are attracted to artistic and creative pursuits, the world of colour, beauty, and emotion.

You are also drawn to mysticism and have deep spiritual aspirations and yearnings.

Empowering you with **simple cosmic guidance.**

Gentle and peace-loving, you may lack the will and competitive spirit needed to make your way in the world. You are often impractical and may seek to avoid or escape the hard realities of life.

You depend a great deal on other people's reactions to you and rarely act until you see how you affect others. You must learn to be direct and straightforward, rather than evasive or manipulative. You also should learn to rely heavily on your hunches.

## **Chapter 4: Mental Interests and Abilities**

You are an exacting perfectionist with a clear, logical, analytical mind and an aptitude for work that requires meticulous attention to detail and efficient organization.

Well-grounded and pragmatic, you tend to develop specialized skills and technical expertise in some practical field. Knowledge, ideas, and theories don't really interest you unless they are useful in a tangible way. You are inclined to analyse, measure, and dissect everything and to miss nuances, subtle shades of feeling and meaning. Your strengths are in your precise thinking, careful craftsmanship, and mastery of technical skills. You tend to be very good at what you do and critical of others' work if it does not meet your high standards.

You have an introspective turn of mind and may enjoy keeping a journal or a record of your dreams and personal experiences, or learning about psychology, history, and the inner workings and

emotional foundations of your own life. You are studious and something of a bookworm.

Your mind is highly imaginative and creative and you possess dramatic, artistic, or musical abilities. As a child, you enjoyed daydreaming, fantasizing, pretending, and probably lived in "your own little world" a good deal.

You perceive things which are not obvious to other people and you have an uncanny ability to "read" people and situations without being told anything about them. However, you must learn to discriminate between a true psychic perception and your imagination. Learning to discipline and focus your mind is necessary if you wish to use all of your creative potential. Otherwise, you could be simply a dreamer.

Communication with others is difficult for you because you often find words frustrating and inadequate to express your experiences and perceptions. Also, you may purposefully mystify or deceive others.

You are adaptable and very social and love to entertain. Because of your charm and outgoing personality, you draw others to you. You have an innate nurturing instinct and love to take care of others. But you also know what appeals to the public and could be a good salesman.

You have the ability to think and act efficiently and seem to perceive what is unspoken or hidden. You go about realizing your plans in a fanatical way and have a tendency to over-work your nervous system.

You tend to expect too much from people and consequently often feel let down by the actions of others. Feeling misunderstood, you may try to avoid contact with others as much as possible.

You tend to be guided by wrong impressions of people and could easily deceive yourself about their character.

Empowering you with **simple cosmic guidance.**

On the other hand, you also may try to exploit other people's weakness and may even think of becoming involved in things that are a little shady.

## Chapter 5: Emotions: Moods, Feelings, Romance

Serious and responsible, you try to carry the world on your shoulders and rarely let others know that you need help and support. You deny or ignore your own emotional needs and feel that others will not accept you if you appear "weak". You are especially uncomfortable with emotional dependency, and will tell yourself and others (even children) not to be a "baby".

You need to accept that no one is self-sufficient all the time, and to be gentler with your "childish" emotional needs and wants. To others, you may appear to be rather hard-nosed and tough, with a business-like attitude toward their personal concerns and feelings.

Actually, no one is a truer friend. Your feelings and loyalties run deep, but you often do not let people know how much you care. You also need to learn to relax, enjoy yourself, and play sometimes.

You depend a great deal upon other people for emotional support and you have a large "family" of friends that care about you and treat you as kin. The women in your life are particularly important to you, and your relationship with them powerfully influences your sense of security and happiness. You may be overly dependent and unsure of yourself without a close partner.

You are dedicated to the people you care about and conscientious about meeting your responsibilities, especially to family. Family solidarity and cohesiveness are very important to you and so, therefore, are the traditions, rituals, and memories that keep the bonds strong.

You're apt to do more than your fair share in the family, to go the extra mile, but this is satisfying rather than burdensome to you for the most part.

You are a sensitive soul, a dreamer, very much attuned to the world of imagination and fantasy. You often retreat into your own inner world in order to escape the harshness of everyday living in the "real world". Gentle and often rather passive as well, you will not fight or assert yourself, even when you need to. You are very sympathetic and somewhat naive emotionally and must guard against being taken advantage of.

You have very deep feelings and profound attachments to people you care about. Your relationship to your mother, sisters, daughters, and other females in your life is apt to be incredibly close and intense. You may be easily manipulated too, when it comes to one of these important relationships, because you're so emotionally invested in it.

Warm-hearted and generous in love, you cannot tolerate pettiness or stinginess in your partner. You want a Hero, a Prince or Princess to idolize and adore, someone you wholeheartedly admire and can be proud of. You are tremendously loyal and devoted once you give your heart to someone.

You crave love, appreciation, and attention from others and hate to be ignored. You are rather susceptible to flattery and love to feel SPECIAL. You enjoy some drama and colour in your love life and grand romantic gestures or an extravagant expression of generosity impresses you.

Empowering you with **simple cosmic guidance**.

Beautiful, elegant, and harmonious surroundings are very important to you, and you have an innate sense of style, design, and form. Socially, also, good form and politeness are important to you and you instinctively avoid crudeness and dissonance.

You enjoy talking about love, relationships, art and the beautiful side of life. You appreciate artistic people.

You are extremely amorous and it is difficult for you to go without a romantic involvement for very long. When you are attracted to someone, you pursue them very ardently and sometimes come on too strong. Doing creative work or artistic work can also satisfy the very strong desire for love and beauty that you feel.

Sensitive and compassionate, you tend to be the "giver" in any relationship. You have high ideals and a refined attitude towards love, seeking to relate in ways that are beyond ego needs and selfishness. You are attracted to people with artistic or mystical inclinations.

You seem to have an unusual power of attraction to other people and frequently may associate with others whether they are good for you or not. Very compulsive in love, you could have a kind of tragic love union.

You don't hold back with your charms and show everyone what you have to offer. Your personality is quite dazzling and enables you to attract many people. Your need for affection is strong and you probably will have very intense love relationships.

## Chapter 6: Drive and Ambition: How You Achieve Your Goals

You are proud and ambitious, and you strive to excel, to stand out and be recognized for who and what you are. You have a very strong ego drive and like to be Number One. You find it difficult to take orders from others or to stay in the background, and you hate being wrong; you always insist that you are right!

You are forceful, strong, energetic, determined, and highly competitive. You play hard, you play to win, and you do not give up easily. In fact, you see life as a competitive sport or performance. You love admiration and applause, and you have a strong sense of personal honour and integrity. You tend to be very self-confident, even arrogant. Because of your belief in yourself, you are able to accomplish much, but if your confidence is ever undermined, you become self-conscious, defensive, and rather belligerent.

Quick-witted and sharp-tongued, you enjoy arguing, debating, and contesting other people's opinions. You are quite forthright and sometimes tactless. You can be very convincing about your point of view, but you are prone to a "hard-sell" approach which sometimes backfires. Challenging mental work is a good avenue for your aggressive intellect.

## Chapter 7: Growth and Expansion: Areas That You Enjoy

Your strength lies in your ability to see the whole, rather than only the parts which compose it. You have a deep need to explore the world and to develop your own philosophy of life and sense of personal meaning. You vacillate between being open-minded and tolerant of differing views, and being dogmatic or overly zealous about your own viewpoint.

You have a positive and constructive attitude toward work and what other people might consider drudgery. You enjoy helping people improve their lives, and the more service you render, the more benefits and rewards you find coming back to you. Promoting health in some manner is a very good avenue for you.

You are very enthusiastic and high-spirited. You inject a positive, optimistic note into any endeavour, and others enjoy your fun-loving and enterprising attitude.

## Chapter 8: Areas That Challenge You or Are Difficult For You

You both yearn for, and fear, being emotionally vulnerable with others and experiencing deep emotional intimacy. Trusting others and letting yourself be known in a deep way doesn't come easily to you, and sexual inhibitions may result from this.

Empowering you with **simple cosmic guidance**.

You are very self-protective and may be compulsively secretive. Learning to relinquish control in personal relationships, and to be completely open, are important tasks for you.

It may be difficult for you to play spontaneously or just let your hair down, for you tend to inhibit that side of yourself by being too self-conscious and concerned with the impression you are making.

You may work very hard at some sport or creative medium in order to excel, for you want very, very much to be noticed, acknowledged, and recognized as special in some way. Though you may indeed be outstanding, you also need to learn to relax and enjoy yourself more.

You are suspicious of groups, crowds, and social organizations. You are quick to notice social games and insincerities, and you avoid the limelight and glamour. You are direct and to the point in speech and manner, stubborn and inflexible, and often unwilling to communicate your innermost feelings and thoughts.

*Now we will discuss patterns of behaviour which you instinctively and habitually revert to when under stress - a mostly unconscious process and one which you are apt to overdo because it is so familiar and thus easy for you. The direction you need to follow in order to develop balance, greater awareness, and wholeness is also described.*

You need to take what you have learned (either through formal education or your own questing and life experience) and share it with others, communicate it, express it in a way others can benefit from. Knowledge and understanding which does not enhance the quality of life for yourself and others in your world is of little real value.

Putting your understanding, philosophy, and convictions into practice in your daily interactions with people, and in the multiple small choices you make every day will enable you to really test your belief system and discover more about life.

Empowering you with **simple cosmic guidance**.

When under stress you are apt to seek refuge in imagining that the grass is greener elsewhere, rather than working with what is at hand. Cultivate your ability to live in the present!

The arena you are most likely to wrestle with these issues is in your immediate, direct encounters with others.

There is a dynamic balance (or conflict) within you between acting spontaneously and being true to yourself, versus modifying yourself or your behaviour to suit others. You seesaw between being inordinately concerned with self to being overly conciliatory and concerned with others' needs, rights, or opinions about you.

Learning to act authentically and forthrightly regardless of possible consequences is your task.

You tend to feel sad a lot of times and may sympathize with people who find themselves in the same boat. You are likely to cling to old things and want to pass on your traditions.

You have the power to influence people to your way of thinking and may forcefully try to obtain the leadership in your community. Others can't help noticing you, and you probably will be the leader in any clubs or associations you may decide to join.

## *Chapter 9: Originality and Imagination: Areas Where You Are Creative, Unique, Unstable, or Compulsive*

Your work habits may be unstructured and you may find it difficult to settle down to a routine task or work situation.

You are interested in new technologies or unusual, even revolutionary methods of solving problems in your work. Non-traditional methods of healing and medicine also fascinate you. You may work in an alternative health field or work for change and reform in whatever field you choose.

You often have very naive, idealistic, or overly romantic attitudes toward people, and it's difficult for you to see others realistically. You may prefer to keep your relationships on an idealistic or platonic level, so that you don't have to deal with the more prosaic, earthy, human aspects of relating.

Thoroughly investigate potential marriage or business partners, as your gullibility and desire to see only the best in people may blind you to the truth about others with whom you form a close alliance.

You have very strong creative forces and whatever you do, you want to do to the fullest. In love and romance, you get totally, passionately, even obsessively involved. In other forms of creative release and self-expression, also, you are very driven and you have a deep need to prove yourself. Your desire for personal recognition is compelling, and if you do not achieve creative success, you may try to force your children to fulfill your dreams for you.

You tend to have an exceptional strong vitality and capacity for work. You know what counts and how to recognize opportunities for your advancement. You are likely to develop and realize big projects and have a touch of luck and great power to succeed.

You seem to be in a continuous state of excitement, are quite

Empowering you with **simple cosmic guidance**.

aggressive and quick to anger. You want to be in control and are inclined to force your will on others. Your parents may be impatient and your up-bringing could have been too demanding.

Your amorous feelings are likely to be very intense and you tend to prove your love for someone through exaggerated gestures. You feel very powerful and irreplaceable and have a tendency to become obsessed by someone or to force your partner to love you.

You are likely to have great intellectual insights and have the ability to learn whatever you wish to study. Your words carry great influence, because the depth of your perception is evident to others. You are a good orator and can influence many people.

You have a tendency to over-tax your mind and have a constant need for deep intellectual probing of ideas and beliefs. Very persevering in your work, you could be an excellent mathematician. But you want to do too much at a time and need to learn to relax.

## **Chapter 10: Generational Influences: Your Age Group**

In this chapter we will discuss characteristics and traits of your generation. Of course, you may not share all of the characteristics of your generation, but you are greatly affected by the tone that is set by your generation.

Empowering you with **simple cosmic guidance**.

The first topic is "The Subconscious and Emotional Drive of Your Age Group". In this section we will describe a deeply felt urge, even compulsion, of your age group. This deeply felt drive comes to the surface with great force and power, and consequently leaves in its wake considerable upheaval and change. The second topic is "The Ideals and Illusions of Your Age Group" that describes the dreams, fantasies, and spiritual aspirations of your age group. The third and last topic is "What is New and Different in Your Age Group", which describes areas in which your age group tends to be innovative, inventive, unusual, and also where it may be unstable and unreliable.

The characteristics described below may affect a group of people for anywhere from a few years to about 30 years. There are one or more different astrological factors described in each of the three sections below.

### ***The Subconscious and Emotional Drive of Your Age Group***

You are part of a 12 year group of people who are deeply interested in personal relationships. Your age group has a deeply-rooted yearning to see people relating and communicating with each other effectively and harmoniously. There is little egotism and a willingness to hear the other person's side of the story and a readiness to compromise and arbitrate different points of view. In fact, the need for harmonious, peaceful relationships is so strong that there is a tendency to overlook real differences and to focus only on the similarities in an attempt to bring different parties into harmony with each other.

Interest in psychology and sociology is high in your age group. There is a tremendous heightening of awareness of social skills. Your age group will experiment with different marriage styles, family relationships, and even business relationships in an attempt to bring fair treatment and effective communication between people. Interest and appreciation for other cultures is also strong, and your age group will work hard to preserve and support the cultural

Empowering you with **simple cosmic guidance**.

heritage of all ethnic groups.

Your strong yearning for equitable and harmonious relationships is also reflected in major advancements in trade agreements, arms control, and international cooperation that are designed and implemented by your generation. These agreements and policies foster a much safer and more cooperative environment for all, although there is also a tendency for greedy individuals to take advantage of the conciliatory atmosphere and twist situations to their own ends.

In short, you are part of a generation of individuals who are deeply interested in other people; you are a humanistic and humanitarian group. You will struggle and experiment with personal relationships, and forge new models for how people can relate as friends, family members, and members of nations as well.

### ***The Ideals and Illusions of Your Age Group***

You are part of a 14 year group of people that are extremely idealistic and farsighted in their dreams. Your age group is very liberal and expansive in outlook, and consequently churches become much more flexible and more eclectic in their approach during your life time. Religions that do not adapt to the broad-minded attitude of your age group simply are unable to attract very much interest and involvement from you.

A great deal of metaphysical musing and speculation is evident in your age group, and there is a very strong interest in all manner of psychic phenomena, UFO's, prophecy, etc. This interest will open many new doors and insights, but will also often lead to a great deal of fantasizing and speculation that is taken more seriously than it should be.

The entire generation to which you belong has tremendous opportunities for spiritual rebirth and awakening. This will not be forced upon you or precipitated by unavoidable events, rather it

Empowering you with **simple cosmic guidance**.

comes from an inner yearning and a natural propensity to seek the depths.

### **What is New and Different in Your Age Group**

You are part of a 7 year group of people who are extremely enterprising and forward-looking. You are optimists and explorers. Your age group shoots for the stars, figuratively and literally. Space exploration takes on new dimensions as your age group pushes fervently to the next frontier. There is a buoyant and youthful optimism and enthusiasm in your group, and you have your share of great discoveries as well as pipe dreams and disillusionment. The discoveries and contributions, however, are many, and more than compensate for the failures.
